CONSTRUCTION

The frame consists of a 22 mm wood fiberboard top, 16 mm wood fiberboard sides, fronts, and bottom, and an 8 mm wood fiberboard back panel. The surface is coated in veneer or laminate, with a thickness of 0.2–2 mm depending on the chosen material. Knobs and bracket handles are made of steel, while locks are either steel or a combination of plastic and steel, depending on the variant. The interior is constructed from 16 mm wood fiberboard with a back panel of 1 mm powder-coated steel sheet.
