

Savo Invite – meeting chair

Office seating

As meeting areas become workplaces, it increases the demands on comfort for meeting chairs. Savo Invite has been developed with exactly that in mind. It is rooted in our philosophy for office chairs, in which ergonomics are just one of several factors.

When we develop chairs for meetings, large or small, our approach is the same as for any workplace. That means creating a chair that is really comfortable for backs, shoulders, and necks – and pleasing to the eye. But while an office chair is usually adapted to suit a single user, meeting room seating has to suit many users. And it has to suit them without adjusting anything... but the height. That's how Savo Invite works.

Functions
